

## MegaPower LCD Display Battery Charger

### Best for application such as:

- Camera
- Two way radio
- Portable game player
- Toy
- Portable hand-held light
- Walkman

### Features

1. Charge up to 4AA or 4AAA rechargeable Ni-Mh / Ni-CD batteries
2. 100VAC to 240VAC worldwide voltage
3. Automatic charge Cut-Off for safety
4. Built-in Micro-controller to ensure fully charged
5. Safety timer
6. Circuit / polarity protection
7. Temperature protection

### Charge Time:

Battery		Capacity	Charging time 1~2pcs	Charging time 3~4pcs
NI-MH	AA	2300mA	150min	300min
		2500mA	165min	330min
	AAA	900mA	125min	250min

### Specifications:

Outlet input voltage: 100V ~ 240VAC

### Charging output:

DC 1.5V  
AA 2A  
AAA 1A

### Contents:

Battery Charger: 1pc (TG-2800)

**Warning:**

Please read the operation instruction enclosed before using this charger. Charge only rechargeable AA or AAA size Nickel-Metal Hydride type rechargeable batteries. Do not charge Alkaline, Carbon Zinc or any other type of battery not specified. Charging other types of batteries may cause an explosion, rupture or leakage, resulting in personal injury and property damage.

**Caution:**

Insert batteries correctly making sure to properly align the "+" and "-" terminals. Do not expose the batteries to water. Do not heat or dispose of in fire. Do not tear off the label or disassemble. The battery charger is for indoor use only, do not expose it to rain or snow.
